Tip of the Month

Have you ever wanted an easy way to decrease the size of your ACE session?

The Session Properties Calculation tab contains a check box that allows you to save (or not) calculated results. This box is checked by default meaning that all calculated results viewed in the Inputs/Results Viewer are automatically saved when you save the session. If you have many what-if cases and/or have viewed RISK statistics, BY, TY and/or SY phased costs, your session can get large very quickly. When you uncheck the box and resave the session, the stored results are removed from the file.

ACEIT Certification/Compliance Documentation
