

---

***Do you want to have multiple people working on the same estimate?*** You can use the ACE-to-ACE plug-in as the master integrator.

A team of people can work on different parts of the estimate and you can use the plug-in to integrate all the pieces into one master session. The plug-in lets you import total, time-phased and RISK results. Links are maintained so the master session can be easily updated as the various parts of the estimate are changed. The ACE-to-ACE plug-in can be accessed from the **Construction** ribbon.

### **Webinar 3: Key Element of Project Success: Understand Impacts of Risk on Cost and Schedule**

Risks exist everywhere in a project. Understanding these risks and their impacts, provides insight into the issues that can take the project off course.

**Length:** 45 minutes + 15 minutes Q&A

Join Tecolote Research on **Thursday, May 28, at 10 AM PST**, for a webinar that can help you gain understanding of how project success may be impacted by risks on cost and schedule.

[Register](#) and we will send you a link to access the meeting within 3 business days

**Highlights Include:**

This webinar will provide insight into understanding the impacts of risks on a project and how seemingly benign risk items can potentially be major drivers in their direct and indirect impact to a project's overall cost and schedule.
