Welcome to ACEIT 8.0 Presentations

We will be holding two Welcome to ACEIT 8.0 presentations as an introduction to ACEIT 8.0. These presentations will go over the background behind the ACEIT 8.0 development, review highlights in the new software and explain how you can learn more details about this upgrade. These will be informative for new and experienced ACEIT model builders, as well as model reviewers. Both presentations will be given by the ACEIT Program Manager, Melissa Cyrulik, at the following locations and dates:

New England ICEAA Chapter meeting 8/1

ICEAA Techshowcase webinar 8/27

ACEIT 8.0 Hotfix

After the release of ACEIT 8.0, we understood that there were a few users having difficulties running the ACE Application after install. Working with user representatives at the affected sites, we found the root source of the issue and generated a fix. The new build of the software “ACEIT 8.0.67.1 Production” is available for download on ACEIT.com under [User Resources>Downloads>Production Software](#) replacing the original ACEIT 8.0 Production build.

For those who already installed the original build, you do not need to download the new one; you can download the hotfix located in [User Resources>Downloads>Software Updates>ACEIT Hotfix 8.0-002](#). This will ensure that your software runs the same as the new build.

Army Certificate of Networthiness

ACEIT 8.0 received Army Certificate of Networthiness (CoN) approval as of January 17, 2019. This certification is valid through January 17, 2022. AFMC is also accepting the Army CoN as a form of approval. A copy of the document can be found on [ACEIT.com>Public Resources>Compliance & Compatibility Documentation](#). If your organization is working to obtain system network approval consider providing the Army CoN as part of a reciprocity agreement.

Update to the 2019 Inflation Indices Available!

An update to the 2019 indices is now available for ACEIT 8.0 and 7.x. It includes an April update to the 2019 Joint Inflation Calculator (JIC), which changed several civilian pay appropriations. To reflect these changes to the JIC, the following seven ACEIT appropriations have been updated:

- **Army:** OMA_P
- **Navy:** OMN_P; OMN; OMNLF; RD TEN
- **US Marine Corps:** OMMC; OMMCR

For more details and to download the indices, please login to ACEIT.com and go to User Resources > Downloads > [Inflation Indices](#).

ACE for Model Builders Class

Our ACE for Model Builders class is for those new to cost model building in ACE. We have completely redesigned our introductory course for ACEIT 8.0 to complement the new advances in the software. This 4-day class will get you through all the ins and outs of ACE and put you well on your way to building models with ease. This is our most popular class, so sign up before it fills up!

You'll learn how to:

- Construct a WBS
- Build estimate equations
- Apply inflation
- Incorporate a learning curve
- Time phase your estimate
- Document your estimate
- Build equation with ACE functions
- Develop and work with CERs
- Model uncertainty on your point estimate
- Create What-If cases in your model
- Create reports and charts for your cases
- Much, much, more
