ACEIT 8.0 Beta Testers Wanted!

Many of you know we've been working on ACEIT 8.0 for a while to address many long term needs of our user community. But now 8.0 is just around the corner and we need your help with testing. We're looking for a few good testers to exercise ACEIT 8.0 and provide valuable feedback.

If you are interested in being a Beta tester, please email us at ACEIT_Support@Tecolote.com and include your 7-digit ACEIT serial number (you must have a current ACEIT license and DMS to participate).

Those who email us and are qualified will be sent a link to download 8.0 Beta from our website. Our testing window is 8-26 April 2019. During this period we ask you to download the software, create new or test copies of your sessions and provide feedback in our testing report format. Participation is free, however space is limited. Links will be provided on a **first-come-first-serve** basis. There are plenty of new features to experience in 8.0, so get access early and try it out!

Announcing: Tecolote Achieves Microsoft Partner Network Application Development Competency Gold Status!

We are proud to announce that we have attained Gold Status membership in the Microsoft Partner network for the 15th consecutive year. In our ongoing membership, we have demonstrated a "best-in-class" ability and commitment to meet Microsoft Corporation customer's evolving needs in the dynamic business environment. The Microsoft Partner Network helps partners strengthen their capabilities to showcase leadership in the marketplace on the latest technology, to better serve customers, and connect with one of the most active, diverse networks in the world.

ACEIT 101 Class Added!

The ACEIT 101 courses have been filling quickly, so to accommodate the high demand we've add an additional ACEIT 101 course to our training schedule. This course will be taught at the Washington, DC MicroTek training facility June 4th – 7th. To make sure you get a seat in this recently added class, [Sign-up Today!](#)

Meet the ACEIT Team

Sabrina Beane, ACEIT Support West

Hello fellow ACEIT Analysts! My name is Sabrina Beane, many of you may already know me as I have been working with ACEIT for over 20 years! I started at Tecolote Research in Santa Barbara as an ACEIT programmer back when ACEIT ran on a mainframe (anyone remember those TK50 tapes?) I have had the privilege of working in all aspects of the ACEIT application including requirements definition, design, implementation, instruction, and support. I have enjoyed meeting many of you over the years at ACEIT workshops, training courses, new feature presentations or over the phone discussing exciting topics like Trapezoid phasing and Shared Learning.

Sabrina Beane, ACEIT Support West

The exciting release of ACEIT 8.0 is right around the corner, which has kept me very busy working with the programmers on requirements and planning Alpha and Beta tests. I am a proud Hokie with a BS degree in Mathematics, I won't mention the year I obtained this degree because you analysts will be way too fast to determine my age. I am a certified ACEIT instructor and ICEAA Certified Cost Estimator/Analyst.

When I'm not at work, I enjoy snow skiing, pilates, reading and appreciating the beautiful beaches, mountains and sunshine of Santa Barbara. As part of ACEIT Support West, I look forward to helping out anyway I can, you can reach me by emailing ACEIT_Support@Tecolote.com.
