"An investment in knowledge pays the best interest."
- Benjamin Franklin

Online Help Text now available!

We are pleased to announce a new user resource called "Online Help." The Online Help Text is an ever-growing repository of detailed, how-to style articles meant to compliment the Help Text already embedded in the ACEIT applications. In its debut we offer three articles on, "Starting out in 8.0", "Using Multiple Monitors with ACE 8.0" and "Converting a 7.5 Session to 8.0" New articles will be added each month for users with active DMS.. To view them, log into ACEIT.com and visit User Resources > Online Help text, or simply follow this link: www.aceit.com/user-resources/online-help/.

Do you have an idea for an article you'd like to see? Please email ACEIT_Support@Tecolote.com with any suggestions or feedback you might have.

December ACEIT for Model Builders Training, Sign up today!

For those of you looking for ACEIT 8.0 training, make sure to sign up for our last ACEIT for Model Builders class of the year. It will be held in Washington, DC on December 10. This class is an introductory course in ACEIT 8.0 where students will receive hands on experience building an estimate in ACE. Students will also be introduced to other tools in the suite and learn how these tools support work in tandem with ACE. This class is beneficial to new ACEIT users as well as users who are transitioning from ACEIT 7.5. Register on-line.

Power Analytics for DoD Cost Analysts: Power BI Class

Data science, analytics and machine learning are growing fields and the government is looking for professionals that can shift through vast stores of data to help better understand costs to ultimately improve program management. Tecolote has provided cost and data analytics training for over 30 years. We are now offering a class on Power Analytics for DoD Cost Analysts using Power BI. With this Power Analytics class, you'll be focusing on extracting, shaping, transforming, and importing data into Power BI.

Students will learn about analyzing the new FlexFile and IPMDR data sources in Power BI. Understanding these formats will be vital for your data science and data analytics endeavors. After attending the Power Analytics for DoD Cost Analysts course, analysts will be able to use Power BI to create cost data models and generate powerful visualizations and dashboard. Data analytics continues to grow so it's important that you grow with it.

If you're interested or have any questions about this class, please email our Training Coordinator, Jill Cleaver.
