

APRIL 2022 | ISSUE 151

ACEIT eNews

*This month, we highlight releases of the **2022 ACEIT System Inflation Table** and the **WBS/CES Update for MIL-STD-881E**, in addition to in-person training opportunities.*

Inflation/Escalation Update for FY22

2022 System Inflation Table

A new ACEIT System Inflation Table is now available for download on the **CADE** and **ASAFM** websites. It contains 2022 updates for the following services and organizations: **Army, Navy, USMC, Air Force, Space Force, and NRO**. The table contains CUI, therefore it can only be hosted on secure government websites.

Government analysts can download the table by logging into CADE (cade.osd.mil), navigating to Data & Analytics, and scrolling to the bottom of the page where you will find the "Endorsed Datasets, Tools and Models Hub" (DTM Hub).

Army civilians and contractors can download the table from <https://www.asafm.army.mil/Cost-Materials/Cost-Tools/>.

All other contractors should contact their government sponsors to obtain the updated table.

This System Inflation Table includes the 2021 Discount Rates for OMB Circular No. A-94 Appendix C (21 Dec 2020). A revision to the 2022 System Inflation Table will be made after the 2022 Discount Rates are published.

Please log into ACEIT.com and visit [User Resources > Downloads > Inflation Indices > 2022 Inflation Indices](#) for more details.

WBS/CES Update for MIL-STD-881E

The built-in ACE System WBS/CESs have been updated to include the MIL-STD-881E and are available for download through www.ACEIT.com. The updated system templates below reflect guidance from the MIL-STD-881E, the 2020 CAPE O&S Guide, and guidance from ODASA-CE.

Updated System WBS Templates:

1. Aircraft
2. Electronics/Avionics/Generic
3. Ground Vehicle
4. Information System/Defense Business
5. Launch Vehicle
6. Missile/Ordnance
7. Sea System
8. Space System
9. Strategic Missile
10. Unmanned Maritime

Updated Army CES Templates:

1. Army CES Aircraft
2. Army CES
Electronics/Avionics/Generic
3. Army CES Ground Vehicle
4. Army CES Missile/Ordnance
5. Army CES Space
6. Army CES Strategic Missile

Additionally, a Government System Test and Evaluation WBS has been added. It contains the Government ST&E breakouts for the commodities provided in MIL-STD 881E, Appendix M.

To download, log into ACEIT.com and navigate to [User Resources > Downloads > ACEIT Content > ACE System WBS Update for MIL-STD-881E \(Mar 2022\)](#). Contact ACEIT_Support@Tecolote.com for questions.

ACEIT Training

We continue to offer our open registration classes in Washington, D.C. for students who prefer an in person training experience. These classes are conducted with COVID-19 safety protocols, for the safety of our instructors and students.

Upcoming open registration offerings include **ACEIT for Advanced Model Builders** starting **May 10, 2022** and **ACEIT for Schedulers: JACS** starting **May 17, 2022**.

Click the options below to see schedules and register for our upcoming training opportunities. For questions contact ACEIT_Train@Tecolote.com.
