# ACEIT eNews

*This month a new webinar and Online Help article and current training offerings.*

---

## **NEW Webinar and Online Help article: Generating Constant Year Results in ACE**

There is a movement among various DoD cost communities to more clearly distinguish between the effects of inflation and escalation. As a part of this effort, ACEIT users are increasingly required to report costs in Constant Year dollars. ACE users can accomplish this by using the Reportable Base Year feature. To learn how to accomplish this task, the ACEIT Team posted two companion resources located under [ACEIT.com](https://www.aceit.com)'s User Resources section, both titled "Generating Constant Year Results in ACE":

- A 40 minute webinar (located under User Resources > Media Center > Special Topics)
- An Online Help article (located under User Resources > Online Help)

If you find that you need to generate Constant Year results, please reference both of these resources and reach out to [ACEIT\\_Support@Tecolote.com](mailto:ACEIT_Support@Tecolote.com) with any questions. We recommend watching the webinar to get a overall understanding of the topic and then using the Online Help article as a reference when working within your ACE session.
