# ACEIT eNews

*This month testers needed for ACEIT 8.2 Alpha Testing Event and current training offerings.*

---

## **Testers Needed!; ACEIT 8.2 Alpha Testing Event**

Have you ever wanted a preview of ACEIT before release and to provide feedback before it's sent out the door? Here's your chance! The ACEIT 8.2 Alpha Testing Event is being held 07 - 08 February in Crystal City, VA, and we need your help testing the software with large, complex, real-world sessions.

The 8.2 release focuses on inflation/escalation changes to fall more in line with the 2021 CAPE Inflation and Escalation Best Practices for Cost Analysis Handbook. The ACEIT Team is looking for government and contractor testers to attend either the 7th or 8th and put the software through its paces while providing detailed feedback. We are looking for testers who are familiar and those who are unfamiliar with the terminology changes.

Testing computers will be provided with the software already loaded, and where possible, testers are encouraged to bring real-world sessions to test with. Testing computers will be wiped after the event.

If you are interested in attending, please send an email to [msparkman@tecolote.com](mailto:msparkman@tecolote.com) with the following:

- Name, government or contractor, and affiliation
- What day you'd like to attend (either the 7th or 8th)
- Are you able to switch to the other date if spots are limited on your preferred date?
- Your level of experience using ACEIT

-How familiar are you with the inflation/escalation changes laid out in the CAPE Escalation Handbook?

Spots are limited, so send your RSVPs in ASAP, and no later than 15 January 2024!
