ACEIT eNews

This month check out notes from support, a new online help article, and the current training class offerings!

Notes from Support - ACEIT Add-in Troubleshooting

ACEIT applications such as POST, CO$TAT, the Inflation Utility, and JACS interface with Office applications as add-ins. If you encounter difficulties loading these ACEIT applications, please refer to the troubleshooting guide posted to *ACEIT.com > User Resources > Support Alerts > POST/CO$TAT/Inflation Utility/JACS 8.0 and 8.1 – Error opening after install.*

This guide contains steps to resolve many add-in related errors and should be shared with IT organizations for software installation and support purposes. The guide addresses add-in errors for ACEIT 8.1 and 8.0.

Please contact ACEIT Support with any questions.

New Online Help Article: How to Apply Learning Curves

We continue our online help article tutorials with a look at basic learning curves. This article is designed to help new users see how to estimate a hardware element with a learning curve.

To view more, log into ACEIT.com and visit User Resources > Online Help. You need to have an active ACEIT DMS to access this section. You're also welcome to email ACEIT_Support@Tecolote.com with any comments, feedback, or ideas you have for future articles!
