## ACEIT 6.1a Software Patch Released

### Support Alert:

We would like to announce the availability of **ACEIT 6.1a Patch**. The patch is available from the [ACEIT website](http://www.aceit.com) as a downloadable update, which will patch the production version of ACEIT 6.1, which was released in Sept. 2004.

#### Purpose:

- Restores ACE Executive RISK Allocation calculations (ACE and POST unaffected)
- Corrects ACE Executive and POST problem with sessions that contain DEC equations referencing other DECs (6.1 returns "0" in this situation, ACE unaffected)
- Replaces a vulnerable DLL file which Microsoft updated after the release of ACEIT 6.1

The patch can be downloaded from the Downloads > Software Patches section of <http://www.aceit.com>. Please see the Support > Release Notes page for a description of the updates. The Release Notes can also be viewed from the What's New help topic in ACE and POST, after installing the update. You can request a full install CD of ACEIT 6.1a by contacting your local point of contact. If you are not sure who your local POC is, logon to the [ACEIT website](http://www.aceit.com) and go to the My ACEIT page.
