Tip of the Month – Customizing a Phased Report

Did you know you can customize a time-phased report to include any ACE column? There are two ways to select ACE columns to include in your phased report:

Option 1: Edit a phased report. From the **Columns** tab, select **Edit Arrangement**:

This opens the **Arrange Workscreen** dialog where you can add desired columns to the report. Use the arrow buttons to order the columns.

Option 2: Once you are viewing the report, you can get directly to the **Arrange Workscreen** dialog by clicking **View > Arrange** from the report editor.

The report below shows a phased report that contains the Unique ID, Phasing Method, and Equation/Throughput columns in addition to the default columns of a phased report.

Row	Cost Element	Approp	Unique ID	Phasing Method	Equation / Throughput	Total	FY 2008	FY 2009	FY 2010
