ACEIT eNews

This month check out our new online help articles, a support alert, and current training offerings.

Support Alert: POST 8.1 and Summary Sections

ACEIT Users should be aware of an issue found in POST 8.1. POST ignores the Summary Results Type of Summary Sections from .acem files, Instead, the Summary Section in the POST report will simply generate whatever results were requested in the overall report (BY, TY, or SY).

A fix for this issue will be included in a forthcoming hotfix release. Please see ACEIT.com > Support Alerts for more details, and send any questions to ACEIT_Support@Tecolote.com.

New Online Help Article: Customize a Report with Sections

Are you trying to create a report template for specific portions of your estimate such as cost drivers and you don't want to worry about updating row numbers as the row structure changes? Then our latest online help article is for you. We show you how organizing your WBS into smaller sections can assist you in reporting.

To view more, log into ACEIT.com and visit User Resources > Online Help. You need to have an active ACEIT DMS to access this section. You're also welcome to email ACEIT_Support@Tecolote.com with any comments, feedback, or ideas you have for future articles!

New Online Help Article: Milestone Phasing Profiles

Another new Online Help article is available on ACEIT.com > User Resources > Online Help!

In it, we demonstrate how users can apply milestone phasing profiles to their sessions. Milestone Phasing Profiles paired with rows using the MS Phasing Method allow users to link time-phased costs directly to significant progress points of the program.

Read the article for more details including how to define a Milestone Phasing Profile, viewing Milestone Phasing Results, and a how to use Milestone Phasing to explore schedule modifications.

ACEIT Training

Summer Time Training

Only 2 Seats Left!
