To: U.S. Government Organizations

Subject: Obtaining ACEIT for a Government Organization

The ACEIT Government Program Office, Air Force Life Cycle Management Center (AFLCMC HAOL/FZC) has asked Tecolote Research, Inc. to recoup a fair share of the ACEIT distribution, maintenance and support (DMS) costs from each ACEIT site. Some agencies have a support contract with Tecolote Research, Inc. to distribute ACEIT on their behalf. If you are not sure if your agency has one, feel free to contact us directly to find out.

If you are in a government organization that does not have an ACEIT DMS support contract, you will need to complete and return to us the enclosed "Software Release Agreement" and an "ACEIT DMS Order Form" for each site where ACEIT will be used. When we receive these documents and your payment, we will provide ACEIT to you. The DMS fee for subsequent years is optional, but DMS will cease one year after payment of the annual DMS fee.

The enclosed description of site responsibilities should answer most of your questions. If you have further questions, please contact us. We also recommend that you visit the ACEIT website at www.aceit.com. It contains a wealth of information, including the current training schedule. If you wish, we can provide tailored training at the site of your choosing. Call for details and thank you for your interest in ACEIT.

U.S. GOVERNMENT AND U.S. GOVERNMENT SUPPORT CONTRACTOR
ACEIT SOFTWARE RELEASE AGREEMENT & SITE RESPONSIBILITIES

The ACEIT software and documentation is provided solely for use by U.S. Government agencies and U.S. Government Support Contractors as Government Furnished Software (GFS). It is not for general distribution, and it may not be released to non U.S. Government agencies, contractors, or foreign nationals, or quoted or extracted for publication, or otherwise copied or distributed without specific written authorization by the U.S. Government that it be used only for U.S. Government purposes.

Tecolote Research, Inc. controls the configuration of this software. The compiled executable code and data are provided for installation on your computer. You shall not change, modify, or copy the ACEIT code. You will not release it to anyone other than those immediately within your organization. If there is any question as to the express permission implied within this agreement, you will contact Tecolote Research, Inc. in writing for clarification.

If your organization does not have a contract with Tecolote Research, Inc. to provide ACEIT software distribution, maintenance, and support (DMS), or is authorized U.S. Government Support Contractor and is not sponsored under a U.S. Government contract with Tecolote Research, Inc. to provide DMS, you will need to pay Tecolote Research, Inc. an annual fee for ACEIT DMS.

The above conditions are agreed to on this date:

U.S. GOVERNMENT AND U.S. GOVERNMENT SUPPORT CONTRACTOR ACEIT SITE RESPONSIBILITIES

ACEIT RELEASE POLICY

The software, data, and documentation are available for use by the U.S. Government and its certified support contractors. However, unless the government organization has an ACEIT support contract with Tecolote Research, Inc. each of its sites and its support contractors must pay an annual fee for distribution, maintenance, and support (DMS) of ACEIT software, data, and documentation before they receive the software. DMS fees for subsequent years are optional if the organization elects to use its existing version of the software, data, and documentation with no further distribution of updates or use of technical support. All other entities must obtain an annual license from Tecolote Research, Inc. to use the software (DMS is included with the license fee). If you have any questions concerning this policy, contact the ACEIT Government Program Director, AFLCMC HAOL/FZC, Hanscom AFB, MA 01731.

ACEIT RELEASE AGREEMENT

An authorized individual must sign an ACEIT Software Release Agreement. This protects the software, documentation, and data from unauthorized use, disclosure, and loss of configuration control. Please make your ACEIT users aware of the agreement's content. Email the signed original to ACEIT Sales at aceit_sales@tecolote.com or mail to Tecolote Research, Inc., 5383 Hollister Ave., Suite 100, Santa Barbara, California 93111.

DISTRIBUTION, MAINTENANCE, AND SUPPORT (DMS)

All government and support contractor sites are charged an annual fee by Tecolote Research, Inc. for costs associated with Tecolote Research, Inc.'s ACEIT software/data/documentation DMS services before they receive the ACEIT software. If you or your Government sponsor has an ACEIT DMS support contract with Tecolote Research, Inc., you may not be required to pay the DMS fee.

ACEIT TRAINING

The Government ACEIT Program Director (AFLCMC HAOL/FZC) strongly recommends users attend a formal ACEIT training course before they receive the ACEIT software. If not provided by the Government, you can obtain training directly from Tecolote Research, Inc. at your site or at various Open Class locations, see https://www.aceit.com/training-center for the ACEIT training schedule. You can contact Tecolote Research, Inc. directly to arrange training. Call (805) 964-6963.

SOFTWARE PROBLEMS

All software problems should be reported through the ACEIT website https://www.aceit.com. Please use this when you have any software problems or wish to suggest enhancements. Your local ACEIT expert or point of contact should review each potential problem first to see if it is a site-specific problem or a software problem. If the local expert can't solve it, use the website. If it's an urgent problem, please email ACEIT_Support@Tecolote.com or call ACEIT Support directly at (805) 964-6963.

U.S. GOVERNMENTAND U.S. GOVERNMENT SUPPORT CONTRACTOR ACEIT SITE RESPONSIBILITIES

COPYRIGHT

ACEIT and related material may be reproduced by and for the U.S. Government for government purposes only. No reproduction is permitted by contractors and non-U.S. Government entities. All ACEIT software, knowledge base, training, user's guides and documentation are copyrighted by Tecolote Research, Inc.

DEVELOPMENT AND CONTROL

ACEIT is developed and fielded through various U.S. Department of Defense contracts (funded by DASA-CE, AFCAA, NCCA, AFLCMC, NSWC, SMC, and others), under the direction of the Cost Analysis Directorate (AFLCMC HAOL/FZC) Air Force Life Cycle Management Center, Hanscom AFB, MA 01731. Tecolote Research, Inc. controls the configuration of the ACEIT software suite. The compiled executable code and data are provided for installation on your LAN or computer. You shall not reverse engineer, decompile, disassemble, change, modify, or copy the ACEIT code.

ACEIT WEBSITE

The ACEIT website may be accessed at https://www.aceit.com. It contains the ACEIT training schedule, points of contact, links to related home pages, and downloadable forms, technical papers, and demos. For those who have a current ACEIT support contract, a current paid DMS fee, or a current paid license, the ACEIT home page has online technical support available, e.g., downloadable software patches, software upgrades, revised inflation indices, etc.

DISCLAIMER

AFLCMC HAOL/FZC, the U.S. Government, and Tecolote Research, Inc., make no warranty or representation, either express or implied, with respect to this software, data, or documentation, including its quality, performance, merchantability, or fitness for a particular purpose. Because the software is inherently complex and may not be completely free of errors, all users are advised to verify all work prepared using the software. In no event will the U.S. Government or Tecolote Research, Inc., be liable for direct, indirect, special, incidental, or consequential damages arising out of the use or inability to use the software, data, or documentation.

A site is defined as a single worksite and division within a single physical location consisting of a part of a building, a building, or a group of buildings. For example:

    a. One major operational division in one location is considered one site.
    b. One major operational division in two locations is considered two sites.
    c. Two major operational divisions in one location are considered two sites.

A Multi-Organizational Complex Site is defined as an unlimited number of workstations (seats) at multiple sites within your geographic location.
