Discover the New and Improved ACEIT.com!

ACEIT.com has undergone a makeover, bringing you a refreshed and enhanced user experience. Here's what you can look forward to:

New Dashboard

Navigate ACEIT.com with ease using our new dashboard. Access your account information, ACEIT Support, and Support Alerts all in one place. The layout guides you to our latest information.

Training Center

Explore our new Training Center, where you can browse a comprehensive list of

course offerings and detailed descriptions. Whether you're looking to enhance your skills or start fresh, our Training Center has something for everyone.

Online Knowledge Base

Subscribers now have access to our expanded Online Knowledge Base. Packed with Help Articles, Guides, Tutorials, and more, it's your go-to resource for all things ACEIT. Find answers to your questions and learn new tips and tricks to maximize your ACEIT experience.

Experience the Upgrade

Don't miss out on the improved features and resources ACEIT.com now offers. Visit our new website today and discover all the enhancements designed to make your experience better than ever! For any questions or assistance, feel free to contact our ACEIT Support team.

New Online Help Articles: ACE What-If Capability with RI\$K – Parts 1 and 2

Are you unsure on how to apply RI\$K to what-if cases? The process is straightforward and explained step-by-step in our two newest help articles. These articles explain how to perform overrides to risk/uncertainty parameters, implementing What-If cases to "turn on/turn off" risk parameters, and how to observe the impacts on results. In them you'll explore overriding risk and uncertainty parameters, the RI\$K on/off column, how to set up switches to activate or deactivate elements in a model, creating cases, and various ways to compare case results.

ACEIT at ICEAA

Make sure to stop by the ACEIT booth at this year's ICEAA Workshop! We look forward to seeing new and familiar faces in Norfolk. Catch up on the latest ACEIT news and training offerings.

Level Up Your ACEIT or Power BI Skills in Less Than a Week!

Join our upcoming in-person ACEIT classes. Choose from:

- ACEIT for Model Builders (introductory)
- ACEIT for Advanced Model Builders
- ACEIT for Schedulers: JACS

We also offer a Power BI class for cost analysts, using the latest DoD data sources to teach best practices. Don't miss out!

Register now for limited spots. Visit <https://aceit.com/training> and select the training calendar to view available dates through 2026. Make your week count! For questions, contact our ACEIT Training Coordinator at (805) 679-8609 or email aceit_train@tecolote.com.

Upcoming Open Training
