

Take Control of the Pace of your ACEIT Learning

ACEIT Self-Paced Training

www.aceit.com

Tecolote has developed ACEIT training materials in support of the cost estimating community for over thirty years. For the first time, Tecolote is making these comprehensive training materials available to allow you to learn how to use ACEIT at your own pace. Our Self-Paced training provides you with tutoring hours with an ACEIT certified instructor, instructional videos **, electronic training student and results files and a hard copy of our ACEIT training manual.

Course Offerings

- **ACEIT for Model Builders (with 4 hours tutoring)*** – An introductory course in ACEIT 8.0, designed for students that want to build cost estimating models
- **ACEIT for Advanced Model Builders (with 4 hours tutoring)*** – Learn advanced techniques to fully utilize the capabilities of ACE 8.0 and POST
- **ACEIT for Reviewers (with 2 hours tutoring)*** – A refresher course for those with some prior ACEIT experience that focuses on techniques for reviewing an existing ACE 8.0 model
- **ACEIT for Schedulers: JACS (with 2 hours tutoring)*** - Learn to load cost into your schedule models using the MS Project add-in JACS to create a fully integrated cost schedule uncertainty analysis

* additional tutoring hours can be added per class

** instructional videos not available for all courses
